

<b>Conditions for Use</b>	This work is freely available for use by individuals and organisations, providing a suitable notice of copyright, identifying Wavelength Publications as the copyright owner, is included on all copies. Under no circumstances may any part of the work be copied for sale or distribution to third parties, nor may any of the files be made available for copying by others.
<b>Copyright Notice</b>	<b>Copyright © 2011, Wavelength Publications</b> All rights reserved. No part of any of the files comprising this work may be duplicated in hardcopy or machine-readable form without prior written authorisation of Wavelength Publications, except within the terms of the Conditions of Use stated above.
<b>Patents/Trademarks</b>	The use of patent information in this work, as well as registered names and trademarks, does not imply freedom for general use or from protection from the law, even though individual items are not specifically marked as such in the text. While considerable care has been taken in its production, the author does not warrant the work to be free from errors.
<b>British Library CIP Data</b>	A catalogue record for this work is available from the British Library.
