sodium rosinate

rosin acid, sodium salt; rosin soap; sodium resinate; sodium rosin, disproportionated; [14351-66-7]; [238-313-1]

\[ C_{20}H_{29}NaO_2 \quad (324.44) \]

White powder. Slightly soluble in water. A mixed product, the main constituent of which is sodium abietate.

Production

- tall oil, distilled/rocin, disproportionated/rocin, tall oil + sodium hydroxide (salt formation)

Uses

emulsifier (emulsion polymerisation)
